

MUHAMMAD ZAHEER

Computer Science Student

mzaheer1070@gmail.com | +92-302-3185767 | Islamabad, Pakistan

SUMMARY

Computer Science student at National University of Technology with hands-on experience in software development, machine learning fundamentals, data preprocessing, and web technologies. Skilled in Python, C/C++, SQL, Firebase, and AI-related workflows. Experienced in building academic and personal projects, including AI-powered applications and portfolio websites. Seeking internship opportunities in Software Development, AI/ML, Data Science, or related technology fields.

KEY SKILLS

Languages

- Python
- C
- C++
- SQL
- Kotlin
- JavaScript

Web

- HTML
- CSS
- JavaScript
- Firebase
- GitHub

Databases

- MySQL
- MongoDB
- Neo4j

AI & Data Science

- Data Cleaning
- Data Preprocessing
- Data Visualization
- Model Training
- Labeled / Unlabeled

Tools

- Linux
- Docker
- Firebase
- Google ML Kit

PROJECTS

AI Translation Mobile Application

- Developed an Android translation app with real-time language support.
- Used Google ML Kit for text translation.

Tech: Android, Java/Kotlin, ML Kit

Personal Portfolio Website

- Built and deployed a responsive portfolio website showcasing projects and skills.
- Integrated contact form using Firebase. Hosted on GitHub Pages.

Tech: HTML, CSS, JavaScript, Firebase

Weather Dashboard Pro & API Status Monitor

- Real-time meteorological forecast engine featuring Open-Meteo API, live AQI pollutants, UV safety index, and unit toggling.
- Built latency and uptime probing dashboard with automated REST endpoint health checking and millisecond metrics.

Tech: HTML5, CSS3, Modern JavaScript, REST APIs, LocalStorage

EDUCATION

Bachelor of Science in Computer Science

Expected Graduation: June, 2027

National University of Technology, Islamabad

Relevant Coursework: Data Structures & Algorithms, Database Systems, Machine Learning, Web Development, Object Oriented Programming

LANGUAGES

- Urdu — Native
- English — Upper Intermediate (B2)
- Punjabi — Native

INTERESTS

- Artificial Intelligence
- Machine Learning
- Mobile App Development
- Automation
